REASON FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: allowance of claims 2-8 is indicated because the prior art of record does not show or suggest a first high-frequency absorbing member provided in said first core type inductor and a second high-frequency absorbing member provided in said second core type inductor are fixed within said windings of the first and second core type inductors by fixing means made of a silicone rubber based adhesive as recited in claims 2-5 and 7; said high-frequency absorbing members located within said windings of said first and second core type inductors are connected via an insulating material located on a position corresponding to said gap presented between said first and the second core type inductors, wherein said insulating material is made of a silicone rubber based material as recited in claim 6; and first and second core type inductors having respectively bar-like high-frequency absorbing members located within windings thereof by fixing means made of a silicon rubber based adhesive, wherein said first core type inductor, said second core type inductor and said air-core inductor are connected in series and said second core type inductor is between said first core type inductor and said air-core inductor as recited in claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
